

THE R M O F O R M I N G

Before

With the assistance of different leading Thermoforming Manufacturers, Lenzkes Clamping Tools has developed a quick release clamping system for the Thermoforming Industry.

This system is stepless and adjustable both horizontally and vertically by simply sliding the clamping arm up to the various size of molds.

After

Quicker and safer set-ups are extremely important in a fast growing industry worldwide. Savings of 45 minutes or more for each set up are common. Don't be left behind!
